

WAUSHARA COMMUNITY YMCA

POOL FAQ

Will there be water therapy for people with disabilities?

We will have an adaptive recreation coordinator on staff and will offer adaptive Water Ex classes (water aerobics) and also sensory friendly swim times.

What will lap swimming and water walking look like with only 2 lanes?

We hope to offer multiple times including early morning, midday, and evening opportunities for lap swimming and water walking. We will adapt to the needs of the community as we grow. Also, our members may need to cooperate and share the lanes by circle swimming during busy times.

Will there be Water Ex (water aerobics) classes?

We plan to offer these classes as soon as our pool opens, Day 1! Watch for a community survey, coming soon.

What will the pool hours be?

All of our aquatic programs will require 1-2 lifeguards on duty as well as the class instructor. To have the entire pool open for laps, open swim, and the water feature running, 2 lifeguards on duty are required. Our hours will depend greatly on staffing. In the beginning, we will have a more limited schedule which will expand as we grow.

As a community, you can help us to maximize our pool offerings by spreading the word and/or helping. Certification for shallow water lifeguards will be provided. Water Ex and swim instructors do not require special certification beyond CPR/AED/First Aid which will also be provided within 60 days of hire.
